THE RICARDIAN EQUIVALENCE HYPOTHESIS IN ASEAN-3 COUNTRIES

By

MUHAMMAD DAANIYALL BIN ABD RAHMAN

April 2012

Chairman: Zaleha Mohd Noor, PhD

Faculty: Faculty of Economic and Management

This study is aimed to examine the existence of Ricardian equivalence hypothesis in ASEAN-3 countries namely Indonesia, Malaysia, and Thailand. By using data from 1971 to 2005, Autoregressive Distributed Lag (ARDL) Bounds test approach was employed on Bernheim (1987) and Giorgioni and Holden (2003) models. Furthermore, the effect of temporary and permanent government spending on private consumption was also examined. Finally, we analyze the effect of government debt on private consumption in contingency on the level of debt.

From the results, it can be concluded that the Ricardian equivalence hypothesis is rejected in short run for Indonesia and Malaysia whereas the in long run the hypothesis possibly existed. For Thailand, Ricardian equivalence hypothesis is denied in long run while holds in short run.

The effect of substitutability and complementarity of government spending and private consumption can be found in the estimations. Generally, Indonesia government spending likely to be substitute to private consumption due to negative relationship majorly found. On the other hand, Malaysia government spending is pertinent as complementary to private consumption rather than substitute. For Thailand case, the government spending is substantially insignificant to influence the private consumption except for positive permanent government spending effect.

In sum, Indonesia domestic debt has negative impact on private consumption while the foreign debt found to be insignificant. The interaction of the domestic debt dummy also proves the sensitivity of private consumption on domestic debt compares to insignificant foreign debt interaction. In Malaysia, the domestic debt has positive impact on private consumption especially in the long run. The impact of foreign debt found to be negative. Meanwhile, the dummy debts interaction is significant only for foreign debt which indicates the influence of external factors such as foreign exchange. For Thailand, the domestic debt is positively influence the private consumption whereas the foreign debt reacts differently. However, the dummy interaction of the debt components is thoroughly insignificant.

Abstrak tesis yang dikemukakan kepada Senat Universiti Putra Malaysia sebagai memenuhi keperluan untuk ijazah Master Sains

HIPOTESIS KESAMAAN RICARDIAN DALAM NEGARA-NEGARA ASEAN-3

Oleh

MUHAMMAD DAANIYALL BIN ABD RAHMAN

Fakulti: Fakulti Ekonomi dan Pengurusan

Tumpuan utama kajian ini untuk menguji kewujudan usul kesetaraan Ricardo dalam negara-negara ASEAN-3 iaitu Indonesia, Malaysia, dan Thailand. Dengan menggunakan data dari tahun 1971 hingga 2005, kami menggunakan pendekatan Ujian Sempadan Autoregrasif Susulan Teragih (Autoregressive Distributed Lag Bounds test approach) ke atas model-model daripada Bernheim (1987) dan Giorgioni dan Holden (2003). Lanjutan daripada itu, kami ingin memeriksa kesan perbelanjaan sementara dan kekal kerajaan terhadap penggunaan swasta. Akhir sekali, kajian ini ingin menganalisa kesan hutang kerajaan terhadap penggunaan swasta dengan kontigensi paras hutang.

Daripada hasil kajian, kami menyimpulkan bahawa usul kesetaraan Ricardo ini ditolak dalam jangka masa pendek bagi kes Indonesia dan Malaysia manakala hipotesis ini berkemungkinan

wujud dalam jangka masa panjang. Bagi Thailand, usul kesetaraan Ricardo dinafikan dalam jangka masa panjang tetapi diterima dalam jangka masa pendek. Kesan penggantian dan pelengkap perbelanjaan kerajaan ke atas penggunaan swasta ditemui dalam analisis kami. Secara keseluruhan, perbelanjaan kerajaan Indonesia lebih utama sebagai pengganti ke atas penggunaan swasta disebabkan hubungan negatif antara kedua-dua pembolehubah tersebut. Manakala, bagi kes Malaysia, perbelanjaan kerajaan lebih sesuai dijadikan pelengkap ke atas penggunaan swasta. Bagi kes Thailand pula, perbelanjaan kerajaan kebanyakannya tidak signifikan untuk mempengaruhi penggunaan swasta kecuali kesan positif perbelanjaan kekal kerajaan.

Keseluruhannya, hutang dalam negara kerajaan Indonesia mempunyai impak yang negatif terhadap penggunaan swasta manakala tiada kesan signifikan daripada hutang luar negara. Interaksi dumi hutang dalam negara juga membuktikan sensitiviti penggunaan swasta terhadap hutang dalam negara manakala interaksi dumi hutang luar negara tidak signifikan. Di Malaysia pula, hutang dalam negara mempunyai impak yang postitif ke atas penggunaan swasta terutamanya dalam jangka masa panjang. Kesan hutang luar negara pula didapati negatif. Sementara itu, interaksi dumi hutang-hutang kerajaan hanya signifikan untuk hutang luar negara sahaja yang mana menunjukkan pengaruh factor-faktor luaran seperti tukaran asing. Bagi Thailand pula, hutang dalam negara mempengaruhi penggunaan swasta secara positif manakala reaksi berbeza untuk hutang luar negara. Akan tetapi, interaksi dumi hutang-hutang kerajaan kesemuanya tidak signifikan untuk memberikan kesan ke atas penggunaan swasta.

ACKNOWLEDGEMENTS

In the name of Allah, the Most Gracious and the Most Merciful. Full-hearted thanks to Him who blessed me throughout the process of completing my thesis. Without His grant, there is no way for me to successfully finish the whole chapters in this precious study.

Not only Him, would I like to appreciate my supervisory committee members, Dr. Zaleha Mohd Noor, my dearest supervisor and Assc. Prof Dr. Law Siong Hook, my helpful committee member. They help me a lot from the beginning of the thesis proposal until the completion stage. I experienced fascinating journey with them along this more than 2 years learning process.

To my parents, Mr Abd Rahman Awang Kechil and Madam Fatimah Samsuddin, millions of love and thanks dedicated to them because of their priceless support. Thanks also to the rest of my family members. To all my friends who directly or indirectly contribute to give ideas and comments on my thesis, special thanks also presented to them especially to Madam Zunika, Miss Ruhaida, and Madam Jamilah. There is no other valuable rather than everyone meaningful thought. Last but not least, to my dearest wife, Miss Eti Mounissa Mohd Mardzi, thanks for giving me the opportunity to concentrate on my study and your sacrifices are beyond price.

Finally, thanks to my employer, Universiti Putra Malaysia and Ministry of Higher Education as they provide scholarship for my study. It is a good incentive to encourage my work in the academic world. Thanks everyone.

APPROVAL SHEET 1

I certify that an Examination Committee has met on 6th April 2012 to conduct the final examination of Muhammad Daaniyall bin Abd Rahman on his Master of Science (Economics) thesis entitled "The Ricardian Equivalence Hypothesis in ASEAN-3 Countries" in accordance with Universiti Pertanian Malaysia (Higher Degree) Act 1980 and Universiti Pertanian Malaysia (Higher Degree) Regulations 1981. The Committee recommends that the student be awarded the Master of Science (Economics)

Member of the Examination Committee were as follows:

Dr Rusmawati Said, PhD

Faculty of Economic and Management
Universiti Putra Malaysia
(Chairman)

Prof Dr Muzafar Shah Habibullah, PhD

Faculty of Economic and Management
Universiti Putra Malaysia
(Internal Examiner)

Dr Normaz Wana Ismail, PhD

Faculty of Economic and Management
Universiti Putra Malaysia
(Internal Examiner)

Dr Evan Lau Poh Hock, PhD

Faculty of Economics and Business
Universiti Malaysia Sarawak
(External Examiner)

.....
PROF DR SEOW HENG FONG, PhD

Professor and Deputy Dean (Thesis)
School of Graduate Studies
Universiti Putra Malaysia

Date:

This thesis was submitted to the Senate of Universiti Putra Malaysia and has been accepted as fulfilment of the requirement for the degree of Master of Science. The members of the Supervisory Committee were as follows:

Zaleha Mohd Noor, PhD

Senior Lecturer

Faculty of Economic and Management
Universiti Putra Malaysia

(Chairman)

Law Siong Hook, PhD

Associate Professor

Faculty of Economic and Management
Universiti Putra Malaysia

(Member)

BUJANG BIN KIM HUAT, PhD

Professor and Dean
School of Graduate Studies
Universiti Putra Malaysia

Date:

DECLARATION

I declare that the thesis is my original work except for quotations and citations which have been duly acknowledged. I also declare that it has not been previously and is not concurrently, submitted for any other degree at Universiti Putra Malaysia or at any other institution.
