To my beloved parents
PREDICTORS OF STUDENT MISBEHAVIOR
IN JORDANIAN HIGH SCHOOLS

By
AMEEN MOHAMMED MOUSA MAHASNEH

February 2012

Chairman:  Prof. Sharifah Md. Nor, PhD
Faculty:  Educational Studies

Despite the number of studies examining student misbehaviour in school, there is still much to be learned in this field, specifically on student misbehaviour in Jordanian high schools. The main objective of this study is to identify predictors of student misbehaviour in Jordanian high schools in the Governorate of Jarash. It aims to identify the types and levels of misbehaviour exhibited by students, to investigate the relationship between student misbehaviour and the students’ attachment and commitment to school, their involvement in school activities, their beliefs in the importance of common school rules, parental attachment and involvement in their education, students’ perceptions of their peer group and their teachers’ behaviour towards them. The research design for this study was quantitative in nature and employed the descriptive correlational research design. The data were analyzed using the independent sample t-test, One Way Analysis of Variance (ANOVA), Pearson Product Moment Correlation and stepwise
multiple regression. The sample of this study consisted of four hundred and forty-three (443) high school students in the Jordanian Governorate of Jarash, 216 were males and 227 females. A questionnaire was adopted based on Hirschi’s Social Bond Theory, Durkheim Theory of morality and Islamic perspective of moral education which formed the theoretical basis of the study.

The findings show that the levels of misbehaviour amongst Jordanian high school students were generally low and that the most common types of misbehaviour were disobedience, followed by classroom disruption, and vandalism. The results of this study also revealed that the level of student misbehaviour significantly differed in relation to gender, grade level, types of school, and parents’ educational background.

The stepwise multiple regression analysis showed that nine out of seventeen predictor variables are directly related to student misbehaviour. The significant predictors adopted from Hirschi’s Social Bond Theory are beliefs in the importance of common school rules, commitment to school, attachment to school, and parental attachment towards children’s education. Demographic variables such as gender, grade level, types of school, academic achievement, and father’s level of education (if he had never attended school) also served as significant predictors. However, independent variables such as father’s level of education (if he had attended secondary school and lower), mother’s level of education, students’ involvement in school activities, parental involvement, students’ perception of their peer
group and that of the teachers’ behaviour towards them were not found to be
significant in predicting student misbehaviour in Jordanian high schools.

The findings suggest that all parties, including the Ministry of Education,
teachers as well as parents need to achieve a higher level of cooperation in
order to improve students discipline in Jordanian high schools.
Abstrak tesis yang dikemukakan kepada Senat Universiti putra Malaysia sebagai memenuhi Keperluan untuk ijazah Doktor Falsafah

PEMBOLEH UBAH PERAMAL SALAH LAKU PELAJAR DI SEKOLAH TINGGI JORDAN

Oleh

AMEEN MOHAMMED MOUSA MAHASNEH

Februari 2012

Pengerusi: Prof. Sharifah Md. Nor, PhD
Fakulti: Pengajian Pendidikan

Walaupun beberapa kajian telah dilakukan berkaitan dengan salah laku pelajar di sekolah, masih banyak yang perlu dipelajari, terutama sekali berhubung salah laku pelajar di sekolah menengah di Jordan. Objektif utama kajian ini adalah untuk mengenal pasti pembolehubah peramal salah laku pelajar di sekolah tinggi Jordan dalam kawasan pentadbiran Jarash. Kajian ini bertujuan untuk mengenal pasti jenis dan tahap salah laku dalam kalangan pelajar. Ia juga bertujuan untuk mengkaji hubungan antara salah laku pelajar dengan perapatan dan komitmen mereka terhadap sekolah, penglibatan mereka dalam aktiviti sekolah, kepercayaan mereka terhadap kepentingan peraturan sekolah, perapatan (attachment) dan penglibatan ibu bapa terhadap pendidikan mereka, persepsi mereka terhadap rakan sebaya, dan tingkah laku guru terhadap mereka. Reka bentuk penyelidikan bagi kajian ini adalah bersifat kuantitatif berbentuk korelasi deskriptif. Data telah

Hasil kajian menunjukkan bahawa tahap salah laku dalam kalangan pelajar sekolah tinggi Jordan adalah pada tahap yang rendah dan jenis salah laku yang paling banyak di lakukan ialah tingkah laku ingkar diikuti dengan gangguan bilik darjah dan vandalisme. Hasil kajian ini juga mendapati bahawa terdapat perbezaan yang signifikan di antara pelajar berhubung dengan gender, tahap persekolahan, jenis sekolah yang dihadiri dan tahap pendidikan ibu dan bapa daripada segi tingkah salah laku pelajar.

Analisis regresi ‘stepwise’ menunjukkan terdapat sembilan pemboleh ubah peramal daripada tujuh belas pembolehuhbah dalam model regresi mempunyai hubungan yang signifikan kepada salah laku pelajar. Pemboleh ubah (berasaskan Teori Jalinan Sosial, Hirschi) yang didapati berhubung dengan salah laku adalah kepercayaan kepada kepentingan peraturan sekolah, komitmen dan perapatan kepada sekolah dan perapatan ibubapa kepada pendidikan anak. Pemboleh ubah demografik seperti gender, tingkatan, jenis sekolah, pencapaian akademik, dan tahap pendidikan bapa (tidak pernah bersekolah) adalah juga pemboleh ubah peramal bagi salah
laku pelajar. Walau bagaimanapun, pemboleh ubah bebas seperti tahap pendidikan bapa (sekolah menengah dan rendah), tahap pendidikan ibu, penglibatan pelajar dalam aktiviti-aktiviti sekolah, penglibatan ibu bapa dalam pendidikan anak, persepsi pelajar terhadap kumpulan rakan sebaya, dan tingkah laku guru terhadap mereka bukan merupakan peramal kepada salah laku pelajar.

Hasil kajian menunjukkan bahawa semua pihak, iaitu Kementerian Pelajaran, guru serta ibu bapa perlu lebih bekerjasama untuk meningkatkan disiplin pelajar di sekolah Jordan.
ACKNOWLEDGEMENTS

“In the name of God, the Most Gracious the Most Merciful”

First and foremost, I would like to acknowledge all those who have inspired me to write this thesis, have lighted the flame within me and have made it possible for me to complete it. I would like to express my deepest and sincere gratitude to the chairman of my supervisor committee, Prof. Dr. Sharifah Md. Nor. I am extremely grateful for her insight, scholarly guidance, generous support, keen editorial eye, and tireless dedication to good research, valuable guidance, feedback and contributions to this work. She has been a constant source of encouragement, knowledge, ingenious ideas and wisdom while completing my PhD. Also I would like to express my gratitude and sincere appreciation to my committee members Prof. Abdul Rahman bin Md. Aroff, Assoc. Prof. Dr. Bahaman Abu Samah and Dr. Nur Surayyah M. Abdullah for their insightful contributions, generous support, valuable feedback and continuous encouragement. Thank you for the counsel and support you have provided me with at all times. I sincerely appreciate everything you have done.

I would like to thank my parents who never ceased to encourage me, expected me to do my best and inspired me. Without their continuous prayers and encouragement it would have been very difficult for me to persist in my endeavours and realize my aspirations. Indeed, without their unwavering belief in me, I would not be where I am today. Thank you for the love, attention, discipline and guidance you gave which enabled me to be successful in life. The highest acknowledgment of thanks is reserved to my
father, my source of life, strength and ability who has instilled in me since my early age the hunger for knowledge and the desire to succeed and for giving me not only the opportunity but also the capacity to pursue my higher education. To my guardian angel, my mother, thank you for your prayers, words of encouragement and love. Without your unconditional love and selfless sacrifice, I would not have become the man I am today. I appreciate your patience and steadfastness while keeping me on my path to ensure I never quit on my dreams. My dear parents, all my accomplishment are indeed yours as well.

Special thanks I also owe to my fiancé Alla’a, my older brother Dr. Ahmad and family, my younger brother Farah, and to my sisters Basima, Fatima, Aisha, Amina, Hind, Sana’a, Faiha’a and Amal. Thank you all for your support and encouragement and for always being there for me.

I would also like to thank my grandparents Mr. Mousa and Mrs. Novh for their love and support. May Allah bless their souls. Equally, my thanks are due to my uncle Dr. Ali and family.

My gratitude also extends to the editor of this thesis, Mrs. Maryam M. Jaan, whose valuable comments and suggestions gave this work its final touch and sparkle.
Last but not least, I wish to take this opportunity to express my sincere gratitude and appreciation to the Dean of the Faculty of Educational Studies and Universiti Putra Malaysia for all the support given.

I dedicate this dissertation to my parents – in acknowledgment of your enduring sacrifice.
APPROVAL

I certify that a Thesis Examination Committee has met on 23 February 2012 to conduct the final examination of Ameen Mohammed Mousa Mahasneh on his thesis entitled "Predictors of Student Misbehavior in Jordanian High Schools" in accordance with the Universities and University Colleges Act 1971 and the Constitution of the Universiti Putra Malaysia [P.U.(A) 106] 15 March 1998. The Committee recommends that the student be awarded the Doctor of Philosophy.

Members of the Thesis Examination Committee were as follows:

**Rohani bte Ahmad Tarmizi, PhD**  
Associate Professor  
Faculty of Educational Studies  
Universiti Putra Malaysia  
(Chairman)

**Turiman bin Suandi 1, PhD**  
Professor  
Faculty of Educational Studies  
Universiti Putra Malaysia  
(Internal Examiner)

**Habsah bte Ismail 2, PhD**  
Associate Professor  
Faculty of Educational Studies  
Universiti Putra Malaysia  
(Internal Examiner)

**Mohammed Alkhawaldeh, PhD**  
Professor  
Faculty of Educational Studies  
Yarmouk University  
Jordan  
(External Examiner)
