

Curtin to host platform for engineering students

MORE than 250 participants have registered to attend the National Chemical Engineering Symposium (NACES 2015) to be held at Curtin University, Sarawak Malaysia (Curtin Sarawak) from Dec 4 to 6.

The symposium is organised by Curtin Sarawak's Institution of Chemical Engineers (IChemE) Student Chapter in collaboration with the university's Department of Chemical Engineering and IChemE Malaysia.

According to NACES 2015, Registration head Mervyn Ling the symposium has received overwhelming response from both the domestic and international undergraduate chemical engineers.

Universities taking part include Institut Teknologi Bandung, National University of Singapore, Monash University Malaysia, University of Nottingham Malaysia, Universiti Kebangsaan Malaysia, Universiti Malaya, Universiti Malaysia Pahang, Universiti Malaysia Sabah, Universiti Putra Malaysia, Universiti Teknologi MARA (UiTM) Pasir Gudang, UiTM Pulau Pinang, UiTM Shah Alam, Universiti Teknologi Petronas, Universiti Tunku Abdul Rahman and Universiti Sains Malaysia.

NACES 2015 organising chairperson and Curtin Sarawak IChemE student chapter president Low Yi Jin said the number of participants has exceeded expectations and is looking forward to an engaging event.

The symposium will also be attended by more than 50 industrial engineers, researchers, and educators.

With the theme "Tug of War: Fossil Fuels against Renewables", NACES 2015 will incorporate seven major technical sessions — Technical Essay Writing, Technical Case Study, Technical PowerPoint Presentation, Technical Debate

Competition, Technical Video Presentation, Chemical Engineering Challenge, and Process Plant Design.

The symposium will serve as a platform for chemical engineering undergraduates to demonstrate their creative thinking, effective communication, and technical knowledge in generating innovative solutions to global development issues and challenges.
