Keeping kids safe

Educators explain how preschoolers can be taught vital fire safety information that can make a big difference in case of an emergency.

"Scream fire!"

"Spray water!"

"Stop, drop and roll!"

There were some of the reactions from preschoolers aged between three to six at the CCS Child Development Centre during a fire drill. The children were divided into groups and asked to follow the instructions given by their teachers and instructors.

During the drill, one of the groups was asked to shout "Scream fire!" while another group was asked to spray water. The children were taught how to stop, drop and roll in case of an emergency.

These activities were designed to educate the children on basic fire safety measures. They were also taught to follow the instructions given by their teachers and instructors in case of an emergency.

What to do when a fire breaks out

Escape to a safe place

About your help and call 999

If a wall or door is hot, make sure it is cool before opening it.

Use the staircase if possible. Use an external door and escape to the ground floor.

If you are on fire, wet your clothes and place them under the water - it will stop burning you.

Do not run if you are on fire. Wet your clothes and put them in cold water before leaving.

Use the stairs, if possible, or find a safe place to escape.

Avoiding sounds such as loud noises or smoke from the fire.

Select a safe place outside, but not in a fire。

Firefighters from CCS Child Development Centre demonstrated how to use a fire extinguisher to the pupils.

The centre aims to develop and produce quick thinking students who know how to react when a fire breaks out.

Dang Wei Ling

The responsibility to educate the young on fire safety falls on society as a whole.

Using soap and water to clean your hands.

Fire drills are a critical part of the CCS Child Development Centre's curriculum, with a focus on teaching children about fire safety and emergency procedures.

A child from CCS Child Development Centre, aged around three, runs towards a fire extinguisher with excitement.

Fire extinguishers in schools are a crucial tool in fire safety education.
