SPRINGER NATURE

INFORMATION ABOUT THE NEWSLETTER

PSASLib-Link is published twice a year by Perpustakaan Sultan Abdul Samad, Universiti Putra Malaysia and Springer Nature. The newsletter invites contributions from librarians, information scientists, educators, administrators, publishers, and other interested persons. Published online in June and December at <http://psas.upm.edu.my/psaspubv2/index.php/psas-lib-link-2/>

Editorial Committee

Chief Editors

Mdm. Salmah Abdullah (UPM Library)
Mabel Tang (Springer Nature)

GUIDE TO CONTRIBUTORS

Types of Contributions

The newsletter publishes articles in all discipline of library and information science including library services and facilities, library collection, material search guide, information resources whether it is printed, digital or other medium. We will publish all types of articles/studies including work on the borders of library, librarianship services and strategy, while strengthening our expertise in traditional library services fields, as well as articles about researchers / research at UPM or other locations and relevant information or current issues to support learning, teaching and research.

Format

Manuscripts should be written in English language.
Length: 200 - 1000 words.
Page layout: A4 size.
Margin: 1 inch on all sides.
Font type: Calibri 11 pt.

The first page of the manuscript should contain the following information: Title of article, Name(s) and affiliation of author(s), Complete address, including telephone and fax numbers, and e-mail address.

The second page of the manuscript is the content of the manuscript.
Author(s) are encouraged to submit manuscripts using Microsoft Word.

Accuracy of Material

Author(s) is responsible for the accuracy of all data, statements and references.

Copyright

Manuscripts submitted to the newsletter have not be published, accepted for publications nor simultaneously submitted for publication elsewhere. By submitting a manuscript, the author(s) agree that copyright for the article is transferred to the publisher, if and when the manuscript is accepted for publication.

Tables, Figures and Illustrations

Tables, figures and illustrations should be provided within the text.

Correspondence

All manuscripts, requests for further information and other correspondence should be sent to:

Chief Editor,

E-mail: psaslib-link@upm.edu.my

UPM Won Asia Pacific 3MT Competition

On 27th September, Brisbane, Australia, Yasmin Mustapha Kamil, a PhD student from UPM, represented Malaysia and participated in Asia Pacific Three Minutes Thesis Competition (3MT). She beat 60 candidates from other countries of the region and won the Winner and People's Choice of the competition. This issue of the newsletter gives you chance to understand Yasmin.

Springer Nature: **SN** Yasmin: **Y**

SN: Can you introduce yourself?

Y: Hi. I'm Yasmin Mustapha Kamil, an ordinary girl from Bandar Baru Bangi. For the past couple of years, I've been working on an optical based sensor for dengue in the Faculty of Engineering at Universiti Putra Malaysia. The project was supervised by Associate Professor Muhammad Hafiz Abu Bakar. Alhamdulillah, I managed to cover the fundamental concepts of the work which earned me a doctorate degree in Biomedical Engineering just in November. I would consider the laboratory as my second home. Sometimes you would find me at a badminton court or the basketball court to de-stress myself; or at home playing piano.

I like cats. If I have the time to write a book, I'm sure that the first book authored by me would be about my cats. Food is a necessity, and thank God is also among the things I appreciate most in life. My favourites are simply anything spicy. What I do not like would be bad smells as I have a sensitive nose.

SN: Why did you join 3MT? What are the motivations behind your participation?

Y: The person who introduced me to the 3MT competition during the faculty stage was my co-supervisor, Professor Mohd Adzir Mahdi. He was the one who urged me to join the competition and thought that it would be a great addition to my experience. Another reason that made me want to participate was to get some practice on my presentation skills before my viva. To be honest, moments before presenting in front of a crowd are among the moments I dread the most. The anticipation makes a second feel like a year, and I guess the only way to shake that off is with practice.

SN: What are the difficulties you faced in the whole 3MT process? And how did you overcome the difficulties?

Y: For one thing, squeezing your 4 years' worth of research in 3 minutes was not easy. But I'm grateful to have great teachers around me who guided me on what and what not to include. For example, my supervisors were awesome at advising me what to put for my 1 slide presentation. It was Dr. Muhammad Hafiz's idea to make it look a bit comical, so that the audience can easily digest what it was about. Prof. Adzir on the other hand gave a few ideas on how to start the speech by giving me links to past winners' presentations. But ultimately, I guess what's important is to tailor your speech in a way that when the audience leave the hall later that day after hearing your speech

(and others), they can still remember what yours was all about, such as the motivation behind your work and what you're aiming to do. Thanks Datin Dr Mardziah helped me with the content of my speech, on what to include, and how to convey them in a way that is easy on the audience.

Apart from that, for a soft-spoken girl like me, I also had difficulties in projecting my voice. But again, coaches which UPM provided for me (Datin Dr. Mardziah, Prof. Noraini, Dr. Norita, and the past winner, Mr. Ashwin Charles) were superb! They really helped me improve my writing and delivery skills.

SN: What have you learnt from the Asia Pacific 3MT in Brisbane?

Y: The audience during the competition in Brisbane were very supportive. I remember coming out of the hall during the semi-finals, and I had local students from UQ coming up to me and telling me how they loved my speech and my work. Some even took down my contact to know more about my research and shared opinions on how I can improve. I would like to think that this culture is good to practice in the academia field, so that researchers are motivated to continue their work.

Also, the keynote speech from Springer Nature was very informative. The speaker gave tips on how to draft your article for publication. One tip which I liked was to make sure that the language you use is easy to understand. Most of us were brought up with the notion that scientific writing has to have a certain degree of 'seriousness' in order to achieve the gold standard of a proper scientific writing. However, sometimes, this serious tone doesn't come across as easily as how we would like it to, which makes the whole article not only tough to understand but difficult to read to the end. Instead, our writing should be easy on the readers. Sentences should be straight to the point and the flow of the writing needs to be seamless.

SN: What advices you will give to the next 3MT participants from UPM?

Y: Be genuine. Your character plays a huge role as well. By being yourself, your speech will sound more natural and convincing. Another tip is to not be intimidated by the complexity of your project's principle and exclude it out from your speech. Instead, try to find a way to explain this point using an analogy. It's really important to include this part in your work, because people would want to know. And if you can explain it in a way where the audience can picture what you're saying in their minds, the trophy is definitely yours to take.

READING CAMPAIGN READ@UNI

By Salmah Abdullah
 Head
 Research and Information Services Division
 Perpustakaan Sultan Abdul Samad, UPM

Launching Ceremony at DATC, UiTM Shah Alam

Read@Uni is a reading campaign initiative for all Malaysian universities by the Ministry of Education to increase reading percentage amongst university graduates by the year 2020 beginning 1st October 2018.

Read@Uni with the tagline "With Knowledge We Lead" and #Malysiareads have the objectives among others to cultivate the reading habits and to increase dissemination of information and share knowledge among university students. The Ministry of Education Malaysia has laid a target for Malaysia to be a reading country by the year 2030.

Universiti Putra Malaysia (UPM) is supportive of this Read@Uni reading campaign initiative and the effort of the Malaysian Ministry of Education, especially the Higher Education Department in targeting Malaysia to be a reading country by 2030. Perpustakaan Sultan Abdul Samad (PSAS) is taking this opportunity to make the Read @ Uni Reading Campaign program as a platform in driving the reading culture and habit in UPM in line with the role of the library as the custodian of knowledge.

One of the Read@Uni reading campaign initiatives is the Reading Campaign poster contest that is open to all students of the public and private universities. A total of 420 entries were received by the competition secretariat at the Universiti Teknologi Mara (UiTM) and among which 104 entries were from UPM.

The launching of the Read@Uni Higher Education Institution was held on November 29th, 2018 (Thursday) at 2.00 pm at the Dewan Agung Tuanku Canselor, Universiti Teknologi MARA (UiTM), Shah Alam. The ceremony was officiated by Yang Berhormat Dr. Maszlee bin Malik, Minister of Education, Malaysia. Twenty seven (27) from PSAS attended the ceremony.

In UPM, the Read@Uni Reading Campaign Program is planned to be launched next year, 2019. Many activities are being planned by the Read@Uni Reading Campaign Committee in UPM which will involve both students and staff to be part of the Read@Uni initiatives.

What kind of help can you get from the Liaison Librarians?

In an effort to support and strengthen the learning, teaching and research activities in UPM, the university library has established an extensive program of liaison services to serve as a contact person for the academic community the faculty, staff and students. The service aims to:

1. Assist users with information requests in person, by phone, or via e-mail.
2. To maintain rapport between the library and faculties, schools, institutes and centres and serve as a contact person for the academic community of the faculty, staff and students.
3. Educate users on how to access, identify and evaluate various resources as to satisfy in their information needs.
4. Provide scheduled reference and research services.
5. Conduct Information Literacy Programme for new students.
6. Assist in strengthening the collection development in their specific fields.
7. Ensure teaching and learning needs of the university community are met.

Programme Modules

Module 1:
Introduction to
the library

Module 2:
WebOPAC

Module 3:
Information
Search
Strategy

Module 4:
Library
Information
Skills on
Online Databases

Module 5:

GREEN ENVIRONMENTAL INITIATIVE DURING THE INFORMATION LITERACY PROGRAMME: LIBRARY INTRODUCTION SESSION (PLM: SPP) SESSION 2018/2019

By Salmah Abdullah
Head
Research and Information Services Division
Perpustakaan Sultan Abdul Samad, UPM

The Information Literacy Program (PLM) is a user education programme by the Perpustakaan Sultan Abdul Samad (PSAS) to guide Universiti Putra Malaysia (UPM) community in using the library information resources, collections, services and its facilities.

PLM: SPP is conducted at the beginning of the first semester of each new undergraduate student intake. This two (2) week session was conducted at PSAS and all its branch libraries. There are two (2) types of classes namely the Library Catalogue Class (WebOPAC) and the Library Introduction Class. In the Library Catalogue Class, students are taught on how to search for the library materials using the Library's Computerization System, WebOPAC. Meanwhile, in the Library Introduction Session, students are being introduced to the library services, facilities and rules. This year the programme started on the 24th of September until the 10th of October 2018. A total of 71 SPP classes and 75 WebOPAC classes were conducted with total number of 1840 students attended.

For the 2018/2019 session, PSAS minimized the use of printed materials in line with UPM green campus initiative. Students are needed to register online using the computer at the counter provided outside the Malawati Room, Electronic Reference Room, Auditorium Room and Termasa Room. However, for the second intake students, they will still need to register using the printed attendance list because their information does not exist in the system. Both the WebOPAC and library guide are no longer in printed format for circulation but they are uploaded into the PSAS website where students can access from anywhere and at any time when needed. Students attended the class will have to fill up in the class assessment form which is made online using the computer provided or using their own mobile applications. The students also answered the post test survey online. Only students with difficulties attaining/accessing the online forms are allowed to answer the post test survey using the printed form. The use of the online form to register and for the post test survey help the library to cut costs. It also support UPM in meeting the requirements of the Environmental Management System (EMS) (ISO 14001).

In-room learning atmosphere for PLM: SPP

INFORMATION LITERACY PROGRAMME: LIBRARY INTRODUCTION SESSION (PLM: SPP) SESSION 2018/2019 QUIZ

By Aznizultina Md Nazar
Senior Librarian
Research and Information Services Division
Perpustakaan Sultan Abdul Samad, UPM

"PLM: SPP & PLM Exhibition" and the "Quiz box" provided for the quiz participation

Winners of the PLM Quiz: SPP receiving their prizes

Each year the Library will hold an exhibition on the library services, facilities and related guides in conjunction with the Information Literacy Program: Library Introduction Session (PLM:SPP). Beginning this year, Perpustakaan Sultan Abdul Samad organized a quiz in relation with the exhibition held to encourage more students to visit the exhibition and gain knowledge from the information exhibited. The quiz was conducted from September until 20th October 2018. Participants who answered correctly will have the opportunity to win the prizes offered. Six participants were chosen as the winners, they are Nurul Aqilah Pohan bt Tarmizi Pohan (GS53089), Haliza bt Mohamed Tahir (197109), Liew Hui Leng (197011), Jenny Tan Tong Xin (199342), Marjelia Nikoh (199354) and Humairah bt Mohd Rodzi (197142). The prizes were presented to the winners during the opening ceremony of the Library For You Program on the 8th of November 2018 at the Faculty of Computer Science and Information.

Borrowing materials from the library

Who can borrow materials from the library?

- All UPM students staff and registered members.
- Individuals who are not UPM students or staff can apply to be the library members to entitle for the service.

What materials can be borrow?

- Books from the General Collections.

How long can you borrow items for the General Collection?

UPM Student	Loan Eligibility / Period
Post-graduate Students (Masters / PhD)	20 copies / 30 days
Distance Learning (Post-graduate Students)	15 copies / 30 days
Clinical Medical Student (Bachelor / Doctor)	10 copies / 30 days
Degree Students (Bachelor / Executive)	10 copies / 14 days
Diploma Students / Foundation Program	6 copies / 14 days
Distance Learning (Degree Students)	4 copies / 21 days
Non-Degree Students (including attachment graduate students from abroad)	4 copies / 14 days
Special Course (Short Term Course)	2 copies / 14 days

UPM Staff	Loan Eligibility / Period
Management and Professional	30 copies / 60 days
Lecturer	30 copies / 60 days
Contract Lecturer / Tutor / Fellow Researcher / Visiting Professor (with Authorized letter)	15 copies / 30 days
Part-time Lecturer, Contract Officer, Attachment Officer, Research Assistant	4 copies / 14 days
Associate Member : Associate Instructor, Department Advisor, Council Member	15 copies / 30 days
Support Staff	4 copies / 14 days

External Member	Loan Eligibility (General Collection only)
Corporate / Private Institution	3 names 2 copies /name / 14 days
Government Institution	3 names 2 copies /name / 14 days
Government staff	2 copies / 14 days
Alumni	2 copies / 14 days
Public Universities	2 copies / 14 days
Private Organization Officer	2 copies / 14 days
Private Universities	2 copies / 14 days
Family Members of UPM staff	2 copies / 14 days
UPM Pensioners	2 copies / 14 days

How to order a book or journal article that the library does not have?

Are you looking for a book or journal article that we don't have? We can order them for you through Document Delivery Service.

What is Document Delivery Service?

The Document Delivery Service enables UPM students, faculty members, and staff to borrow materials not available at UPM libraries from other collaborating libraries, both local and abroad. Requests are restricted to materials required for study, teaching, or research purposes only. All requests must comply with the Copyright Law.

How to Request for the service?

Make sure you're connected to the UPM Library EzProxy. This will allow you to access Document Delivery Service Form from anywhere. If you have any problems or enquiries, you can call us +603-89468629 or email pap@upm.edu.my / mf_jefri@upm.edu.my.

The screenshot displays the UPM Library website interface. At the top left is the UPM logo with the text 'UNIVERSITI PUTRA MALAYSIA BERILMU BERBAKTI'. To the right of the logo are navigation links: 'PERPUSTAKAAN SULTAN ABDUL SAMAD', 'HOME', 'CONTACT US', and 'LOGOUT'. On the left side, there is a 'Directory' menu with several items, including 'Document Delivery Services', which is highlighted with a blue box and a black arrow pointing to it. The main content area is titled 'Document Delivery Services' and contains a 'Listings' section with a search icon and the text 'Results 1 - 1 of 1'. Below this, there is a red link labeled 'Document Delivery Service Form' with a black arrow pointing to it. To the right of this link is the text 'Add your listing here'.

Data sharing from UPM Data Bank

UPM Data Bank was established as a result of a memorandum of understanding between the Department of Statistics Malaysia (DOSM) and Universiti Putra Malaysia (UPM). UPM has delegated the responsibility of managing the micro data services to the Library. Data supplied by DOSM include;

Household Income Survey:

- Year 2007, 2009, 2012, 2014
- 30% of the number of households with 22 variables

Household Expenditure Survey:

- Year 1998-1999, 2004/2005, 2009, 2014
- 30% of the number of households with the number of variables according to the survey

Labour Force Survey:

- Year 1982, 1985, 1988, 1997, 2000, 2003, 2006, 2009, 2012, 2015
- 30% of the total record of household members who are of working age 15 to 64 years

Population and Housing Census:

- Year 1980, 1991, 2000, 2010
- 2% of the total Malaysian population data

Yearly Manufacture:

- Year 2003, 2006, 2009, 2012
- Using Malaysia Standard Industrial Classification (MSIC)
- 30% of the number of individual organizations without weights

Department of Statistics Malaysia (DOSM) activities/events @PSAS

In September 2018, the Library jointly organized a Statistics Talk Program with the Department of Statistics Malaysia (DOSM). Participation to this program is free and open to all members of UPM which include lecturers, researchers and students.

Statistics Talk Program 2018

Topic : Consumer Price Index of Malaysia

Date: 13th September 2018

Venue: Bilik Termasa, PSAS

Nature highlights

Nature, No. 1 weekly international science journal

First published in 1869, Nature is the leading weekly interdisciplinary science journal containing some of the most important and influential papers across all areas of science and technology on the basis of its originality, importance, timeliness and surprising conclusions. The quality and prestige associated with Nature is unsurpassed: it's our commitment to publishing ground-breaking research whilst maintaining a rigorous editorial process that has resulted in Nature being the most highly-cited multidisciplinary journal. Since launching in 1869, Nature continues to inspire and inform researchers, clinicians, academics and industry experts worldwide.

UPM now has access to this high impact journal and this is essential for your research and study.

Don't miss out any volume!

Free Journal Authentication Service

Free Journal Authentication Service help UPM's students and staff in selecting appropriate academic journals. The librarians will help to confirm whether the journals are indexed in Scopus database or Incites Journal Citation Reports (JCR). The authentication is important to ensure that students and staff of UPM choose and use resources from high-impact journals in publishing their academic articles.

Chat with a reference librarian

Enjoy chatting (*Facebook Messenger*) with your reference librarian from the comfort of your own home or you can also email, call and speak to the reference librarian in person, if you wish. They will be happy to answer any questions.

Meet your liaison librarian

Would you like to meet your liaison librarian to guide you with your research projects? Just contact your liaison librarian to arrange for an appointment. Their emails and contact informations are available at the library website.

eBooks available for you

The Library offers an unlimited access to multiple databases of eBooks that you can use or read. You can access this eBooks by login via EzProxy at the main menu on the Library website and choose 'E-Books' under 'Categories'.
