

Ras Adiba to push for aid to repair varsity PWD facilities

SERDANG: Senator Datuk Ras Adiba Radzi will propose to the government that allocations for repair of infrastructure and facilities for persons with disabilities (PWD) on campuses be made to public and private institutions of learning. The PWD Sentral president, who represents PWD in the Senate, said the allocations were necessary for students with disabilities. "It also gives confidence to PWD students to further their education without them feeling neglected," she said after a visit to Universiti Putra Malaysia here yesterday, the first university in her University Tour series. Ras Adiba, who is Bernama chairman, was taken to several locations on campus to inspect the facilities provided to PWD students. UPM had 53 PWD students and five PWD staff. **Bernama**
